REQUEST FOR UPDATED FILING RECEIPT

Sir:

Attached is a copy of the official filing receipt received from the U.S. Patent and Trademark Office in the present application for which issuance of an updated filing receipt is respectfully requested. The requested corrections are marked in red on the attached copy.

CERTIFICATE OF MAILING UNDER 37 C.F.R. §1.8(a)

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail, postpaid in an envelope, addressed to the: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450 on April 8, 2005.

Dated: April 8, 2005

Michael J. Porco

The filing receipt for the present application filed on January 21, 2004 listed domestic priority as a continuation of a U.S. Patent Application Serial No. 10/073,761, filed February 11, 2002, which is incomplete. The domestic priority of the 10/073,761 application was also incomplete. These deficiencies have been resolved and Applicants hereby respectfully request that a complete domestic priority data for the present application be included in the filing receipt.

The complete domestic priority data for the present application was included in the Specification of the above application through a preliminary amendment filed on January 21, 2004, a copy of which is enclosed herewith. In addition, the domestic priority data for the parent application of the present application, application No. 10/073,761, was corrected through a Petition For An Unintentionally Delayed Domestic Priority Claim Under 37 C.F.R. § 1.78(a)(3) and (a)(6) filed on April 8, 2004 and which was subsequently granted on May 27, 2004. (A copy of the Petition, Decision and Corrected Filing Receipt for Application No. 10/073,761 are attached for your convenience.)

The Applicants respectfully request that the domestic priority for the present application be updated to state that the present application is a continuation of a U.S. Patent Application Serial No. 10/073,761, filed February 11, 2002, which is a continuation-in-part application of U.S. Patent Application Serial No. 09/408,944, filed September 30, 1999, which claims the benefit of U.S. Provisional Application No. 60/105,417, filed October 23, 1998. Therefore, the Applicants respectfully request correction of the priority of the present application to the filing date of the 60/105,417 application, namely, October 23, 1998.

Please charge any deficiency as well as any other fee(s) which may become due under 37 C.F.R. § 1.16 and/or 1.17 at any time during the pendency of this application, or credit any overpayment of such fee(s) to Deposit Account No. 21-0550. Also, in the event any extensions of time for responding are required for the pending application(s), please treat this paper as a petition to extend the time as required and charge Deposit Account No. 21-0550 therefor. TWO (2) COPIES OF THIS SHEET ARE ENCLOSED.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Michael J. Porco", written in a cursive style.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
